

Diamond Qigong

A two-day Qigong workshop with Master Liu He from the Ling Gui International Healing Qigong School.

Diamond Qigong nourishes the deepest aspect of our bodies: the blood, Qi and essence. This form focuses on the health of our breasts. The left breast has a connection with the liver and the right breast with the lungs. Tan Zhong acupoint located between the breasts connects with the heart, kidneys and spleen. By circulating the Qi in the breasts you will stimulate energy of the 5 organs creating an optimal functioning system, releasing deep blockages and stabilizing the emotions. This Qigong is effective for prostate and breast health as well as overall health enhancement.
